Secondary School

Krishnaveni High School

2019

GPA: 8.8

LANGUAGES

English

Telugu

OBJECTIVE

Passionate technology enthusiast skilled in Java, and Python programming. Experience in web development. Holds certifications in python programming and web development. Strong problem-solving and communication skills.

INTERNSHIP

Web Development Virtual Internship

- Completed my 4 weeks Web Development Internship during May10 - June10 2024 in Bharat Intern.
- Developed a weather webpage that displays real-time weather data and forecasts for different locations.
- Used third-party APIs (like OpenWeatherMap) to fetch and display weather related data dynamically

PROJECTS

BRIGHTNESS CONTROL WITH HAND DETECTION AND OPENCV

Developed a project leverages OpenCV and Media pipe to create a system that adjusts the screen brightness based on hand gestures in real time. The project provides an innovative and touchless way to control brightness, demonstrating practical applications of computer vision and enhancing user convenience.

REALTIME WEATHER API

Developed a project involves the development of a real-time weather webpage that provides users with current weather conditions and forecasts for various locations.

CERTIFICATIONS

- Certification in Web Development by Bharat Intern.
- Certification in Python programming (Basic) by Cisco academy
- Certification in Google Android Developer by AICTE Eduskills Foundation.

HOBBIES

- Volunteering
- Video editing
